

I would like to oppose seeing my KLOVE (90.1) (93.1) (104.3) being replaced by an LPFM.

KLOVE serves me as well as the local community. It's impact on individuals, families, churches is incredible. It offers one of the strongest, most encouraging radio programming I have ever experienced. Its effects are positive! It should be heard by all. Everyone would benefit from having family friendly programming lifting up wholesome values. Please consider not replacing this avenue of broadcasting.
